### Equal Rights

GOVERNOR HAYES OF OHIO ON SUFFRAGE AND REPRESENTATION

The following is the concluding portion of the inaugural address of Governor Hayes of Ohio:

"An important question of principle in our State government still remains unsettled. All are familiar with the conflicts to which the policy of making distinctions between citizens in civil and political rights has given rise in Ohio. The first efforts of those who opposed this policy were [illegible] to establish equality of civil rights. The result [illegible] has thus given [illegible] an educated and honored citizen of the State.

"The laws which created distinctions in the particular respects of civil rights were repealed in the year 1849 after an obstinate contest memorable in the history of the State. Their repeal was looked upon with great disfavor by a large portion of the people as a dangerous innovation upon a just and well settled policy. Their advocacy in that direction consigned many members of the Legislature to the repose of private life. But I am not aware that any evil results justified these apprehensions, or that any effort was ever made to impose the old disabilities. On the contrary, the new policy, if I may call it so, has been found consistent with justice to the negroes and the interests of the whites, that no one—certainly no party—in Ohio would be willing to abandon it."

An effort to secure to all citizens equal political rights was made in the State Constitutional Convention of 1851. Only thirteen out of one hundred and eight members in that body voted in its favor, and it is probable that less than one tenth of the State would then have voted to strike the word white out of the constitution.

The last General Assembly submitted to the people a proposition to amend the state constitution so as to abolish distinctions in political rights based upon color. The proposition contained several clauses not pertinent to its main purpose, under which, if adopted, it was believed by many that the number of white citizens who would be disfranchised would be much greater than the number of colored citizens who would be allowed the right of suffrage. Notwithstanding the proposition was thus hampered it received 216,987 votes, or nearly forty five per cent of all the votes cast in the State. This result shows great progress in public sentiment since the adoption of the constitution of 1851, and inspires the friends of equal political rights with a confident hope that in 1871, when the opportunity is given to the people, by the provisions of the constitution, to call a Constitutional Convention, the organic law of the State will be so amended as to secure in Ohio to all the governed an equal voice in the government.

But whatever reasonable doubts may be entertained as to the probable action of the people of Ohio on the question of an extension of suffrage when a new State constitution will be formed, I submit with confidence that nothing has occurred which warrants the opinion that the ratification by the last General Assembly of the Fourteenth Amendment to the Constitution of the United States was not in accordance with the deliberate and settled convictions of the people. That amendment was, after the amplest discussion, upon an issue distinctly presented, sanctioned by a large majority of the people. If any fact exists which justifies the belief that they now wish that the resolution should be repealed by which the assent of Ohio was given to that important amendment, it has not been brought to the attention of the public. Omitting all reference to other valuable provisions, it may be safely said that the section which secures among all the States of the Union equal representation, in the House of Representatives, and in the Electoral Colleges, in proportion to the voting population, is deemed of vital importance by the people of Ohio. Without now raising the grave question as to the right of a State to withdraw its assent, which has been constitutionally given to a proposed amendment of the Federal Constitution, I respectfully suggest that the attempt which is now making, to withdraw the assent of Ohio to the Fourteenth Amendment to the Federal Constitution be postponed until the people shall again have an opportunity to give expression to their will. In my judgment Ohio will never consent that the whites of the South, a large majority of whom were lately in rebellion, shall exercise in the government of the nation as much political power, man for man, as the same number of white citizens of Ohio, and be allowed, in addition thereto, thirty members of Congress and of the Electoral Colleges for colored people deprived of every political privilege.

### "Negro Supremacy"

[From the Chicago Republican.]

At the recent "Democratic" dinner at Washington, all the orators who spoke from A Johnson down to Jerry Black and all the invited guests who wrote letters from Frank Pierce to the old Pat Fund made the assertion that the reconstruction bills placed the negroes in the rebel States, as a race, in political supremacy and reduced the whites beneath negro rule. This silly statement which is repeated day after day by the Copperhead newspapers and in resolutions of Copperhead conventions is utterly disproved by the facts. In Mississippi and South Carolina the negro population is in excess of the white, but that condition of things existed long before the war. It is possible that the war increased the negro excess, but for that result the reconstruction acts are in no wise responsible. Assuming that the population of the whites and blacks of these States bear substantially the same proportion to each other now that they did before the war, when the whites composed three fifths of the whole number, how can the law which makes suffrage universal place three fifths of the people under the domination of two fifths, particularly when the three fifths have all the education, learning, experience and ability and are employers of the other two fifths, who have no political experience or information? Ex Governor Brown of Georgia, who was the rebel Governor of that State during the whole period of the war and a man of great influence in Georgia, in a speech before the Georgia Convention assembled at Atlanta a few days ago [illegible] of these Copperhead falsehoods [illegible] and there in the capital of the State [illegible] the population white and black directly affected by the reconstruction laws, said:

"The South has committed a great error in rejecting the constitutional amendment. She will never get better terms than those contained in the Reconstruction act. Congress had disfranchised no white men longer than until the provisional government will expire. If we must have universal suffrage, he wanted it universal for both races.

"The people North have been told lately that the acts of Congress establish negro supremacy and will result in that in the South. *This charge is false.* It was the *[illegible]* [illegible] Here is fifteen thousand white majority in Georgia. With this majority and the boasted superiority of the race in intellect, education, experience and wealth, it is *[illegible]* [illegible] and counts number everywhere. The charge that General Pope gerrymandered the State to give negroes power is false. He adopted the districts as left by the [illegible] without alteration. [illegible] Georgia has been tried by military [illegible] A majority of the thinking men of Georgia [illegible] be ruled [illegible] The press has [illegible] History will do him justice. Democratic triumphs will not relieve us."

In these few sentences of Governor Brown's speech [illegible] at Washington [illegible] at Indianapolis [illegible] in Georgia [illegible] to the whites and blacks [illegible] white subjugation and negro supremacy [illegible] pertinaciously [illegible] by the Copperhead [illegible]

### LATE EASTERN NEWS

WASHINGTON D C Jan 16

THE WAR DEPARTMENT IMBROGLIO

To-day has not brought any decisive development. The War Office business Mr Stanton was at the department as usual. He transacted all the customary business of the office and his authority as Secretary is recognized by all the chiefs of the departments of the government. Official communications having passed between him and several of the Secretaries. His requisitions for money have gone through the necessary bureaus of the Treasury as heretofore and he officially addressed both houses of Congress to-day. Papers with his endorsement and signature have also been sent in the ordinary way to the White House. The President has not yet held any business communication with him.

TEST CASE

A case has just been made to test the question as to the status of the States lately in rebellion in the Supreme Court. During the war the Confederate authorities in Texas sold several millions of dollars worth of indemnity bonds granted that State by the General Government to White Child & Co of Kentucky, and certain parties in New York and elsewhere. After the close of the war the authorities of Texas under the provisional government appeared in the Supreme Court here and asked and obtained an injunction restraining the parties holding the bonds thus sold from drawing interest on them. These parties now appear before the Court and through their attorneys ask that the injunction be dissolved upon the ground that Texas is not a State and has no standing as such in the Supreme Court. Those who have arranged this claim that it involves the whole question of reconstruction in a direct manner.

VOLUNTEER OFFICERS IN SERVICE

The Secretary of War Mr Stanton sent a letter to the Senate to-day in reply to a resolution of inquiry from which it appears that the volunteer officers now in service are as follows: Major General O O Howard, Brigadier Generals Scott, Sewall, and Brown, Lieutenant Colonel Fred J Harker, two Majors, eleven Captains, six Lieutenants and twenty one additional Paymasters. The order made by General Grant six weeks ago has been carried out with respect to all volunteer officers but these, most of whom are retained in the service of the Freedmen's Bureau. The six Lieutenants and four of the Captains belong to the Veteran Reserve Corps. The Paymasters are likely to be retained for some time yet as their services are absolutely essential to the proper payment of the army.

GENERAL NEWS

From the Chicago Tribune Jan 1

The Committee on Banking and Currency in the House of Representatives, has agreed to report a bill for the substitution of greenbacks for the National Bank currency.

General Grant has engaged Senator Trumbull as the counsel for the military authorities, in the case of McArdle of Mississippi against the military to test the constitutionality of the Reconstruction laws, before the Supreme Court.

Colonel Greene, of the Boston *Post*, declines the Assistant Treasurership of Boston offered him by Andrew Johnson. He says that the treasury of the *Post* is amply sufficient for all his demands.

Hon Samuel Shellabarger, of Ohio, whose health has of late been so bad as to cause him to entertain the purpose of resigning his seat in Congress, is so far improved that his friends may expect shortly to hear from him in his seat again.

The leading article in the London *Times*, of December 31, occupied seven columns on a subject of no particular interest. English endurance is proverbial, but we doubt if one in a hundred of the paper's regular readers went through the article.

A correspondent of the Cincinnati *Commercial* urges the nomination of Judge Chase for the Presidency, and proceeds to prove that the Republican party has no chance of success if it nominates "what is called an available candidate." Will its chances be improved by nominating one who is "unavailable"?

We hear from a source which is of the highest authority that Ben Wade most emphatically denies that he is a candidate for Congress in place of General Garfield, and says that all persons who have used his name in this connection have done so without his authority and in violation of his wishes.

Dickens at Philadelphia, is the guest of Geo W Childs of the *Ledger*. His first reading was to a $5 000 house. He has written home to his friends that he expects to bag £50,000 in America during his stay. He finds the Yankee goose the best one he ever plucked.

### What they Celebrate

[From the Missouri Democrat.]

It is a somewhat singular and suggestive fact that of all the great battles which have reflected glory on the American arms and illustrated American patriotism and valor, the only battle which the Democratic party ever celebrates is the battle of New Orleans. Not the last battle of New Orleans, though that was infinitely more glorious as a military achievement, and gave to Farragut and his heroes a higher place in the roll of fame than ever was reached by the soldiers of 1812, though it was incomparably more thrilling in dramatic interest and astounded the world as few other exploits by land or sea have ever done, nevertheless that battle has never been mentioned by the Democrats. Unhappily, they were on the wrong side in that fight. The glorious *Varuna*, which went to the bottom still fighting heroically, was not the Democratic ship, nor yet the immortal *Hartford* which went crashing over rebel iron-clads, shaking off rebel fire rafts, and driving rebel gunners from their casemates in Fort Jackson by her well aimed broadsides. The *Manassas*, which floated a useless hulk to the Southwest Pass and grounded on the bar, remained for months a memento of the Democratic fortunes in that conflict. The rebel ram which tried in vain to stop the Union fleet and was at last blown up in despair on the eastern bank was a Democratic vessel. The Armstrong gun made in England, sent here to aid the rebel [illegible] Fort St Philip, fired with deadly effect at ships bearing the stars and stripes and at last knocked into everlasting silence by a shell from Porter was a Democratic gun. The vanquished never celebrate their defeats. Therefore the Democratic party does not celebrate the more recent and more glorious battle of New Orleans.

There have been some other battles, far more remarkable as illustrations of American heroism and endurance and soldiership, than the fight under General Jackson. An army of red coats contemptuously marched up to breastworks and were shot down by the rifles of well protected defenders to that extent that they ran away. That was the battle of New Orleans, by Democracy celebrated. More recently American soldiers, patriots in purpose, but volunteers and comparatively raw recruits in military training, have fought for two days as at Shiloh, or for three days as at Pea Ridge, against overwhelming assaults, and [illegible] fortifications but their breasts to hostile [illegible] have saved the nation by their determined and enduring heroism. But in these fights again Democracy was on the wrong side. Battles famous in all future history for the number of men engaged, the importance of the issue, the desperation of the contest, or the marvelous courage or generalship displayed have since been fought: the storming of Lookout Mountain and Missionary Ridge, the siege of Vicksburg, the three days battle at Gettysburg, the prolonged battle all the way to Atlanta, the death grapple in the gloom of the Wilderness, the lightning strokes of the Shenandoah and of Five Forks, all thrill every patriotic heart with pride and will hand down to future times [illegible] achievements won by [illegible] comparison with the [illegible] great captains of the old world. But Democracy was not on the winning side in any of these battles. The Democratic party, if it must celebrate any recent achievements in war, must celebrate the rout at Manassas and the slaughter at Fredericksburg, the starving of prisoners at Andersonville, the firing of crowded hotels at New York and the [illegible] These [illegible] the [illegible] The Democratic party [illegible] the battle of New Orleans—the first and not the last and most glorious.

It has been discovered that we have the [illegible] of fastening a quarrel on the island of St. Domingo, which will enable us to seize the bay of Samana and thus obtain a foothold in the West Indies without the trouble of paying for it. The *National Intelligencer* strongly urges this mode of [illegible] ing upon the Government as at once [illegible] and more becoming the dignity of the nation. Until this question is settled it holds we cannot [illegible] buy anything from St Domingo, or have friendly dealings of any kind with its government. It seems the Dominicans, five or six years ago, drove off some Americans from an island near there of which they had taken possession. By seizing what we want now under pretext of redress for this insult, we can save a great deal of money and settle the question of buying St. Thomas. The plot is not a bad one [illegible] plots go.

### The Stuff some Ambitious Men are Made Of

At the close of the late session of the Washington Territory Legislature an entertainment was given by Speaker Johnson in which the members and officers of both Houses, and many other [illegible] of the Territory, participated. Of course toasts were offered and speeches made. It is not to our purpose at present to review the whole of the happy scene; we refer to it for the purpose of noticing the remarks of one of the distinguished [illegible] in response to a very noble sentiment that was offered on the occasion. That sentiment was as follows:

*The South.*—Dear to her sons in the days of [illegible]. When calamities gather around her, [illegible] yet to her children, are her generous people and [illegible] hills.

We learn from the *Standard* that Judge Wyche [illegible] to the above, and we are favored by [illegible] with a synopsis of his remarks. The [illegible] does equal credit to the head and heart of the distinguished Judge. He pitied the calamities of the South but rejoiced in the country's [illegible]. He was opposed to subjecting thirty [illegible] of whites, who possess intelligence, wealth, [illegible] and valor, to the bondage of four millions of negroes who, to adopt his own forcible [illegible], are "encompassed with ignorance, and as [illegible] with the functions of government as a hog is with heaven." He opposed the "building [illegible] that the white man had no rights the black man was bound to respect." He [illegible] no such doctrine as that in this [illegible]. He "loved liberty," and therefore would [illegible] at that a great nation of white men, capable of so high a destiny, should be ground under the heel of one-[illegible] of their number of ignorant [illegible] negroes. Such sentiments do credit to the distinguished Judge's sense of justice and [illegible], and we have strong hopes that while the [illegible] of this country can find champions [illegible] and resolute, the evil day of their [illegible] may never come.

[illegible] was "willing to entrust our institutions to patriotic men of all parties, to such [illegible] as Fessenden and Pendleton, and to [illegible], as Grant, but not to the mad [illegible] of Stevens, or the leprous embraces of [illegible]." The [illegible] of spirit which makes one [illegible] willing to support Fessenden or Pendleton [illegible] the views and [illegible] they respectively [illegible], is of a piece with that benevolence and [illegible] which protests against putting the [illegible] of white people of this country [illegible] the domination of a handful of negroes [illegible] as the "mad dreams of Stevens" and the "leprous embraces of Sumner," may [illegible] a little harsh in the mouth of one whose nature is so full of the milk of human kindness, but [illegible] consider that these names are the [illegible] of mildness compared with those [illegible] applied to the same persons by our worthy President, we can pardon that little [illegible], which does no more than convert this [illegible] a kindness into a very soft card on [illegible] when these two terrible individuals [illegible].

[illegible] coincided in so many particulars [illegible] of this speech, so we are glad [illegible] with the speaker in the further remark that this nation is "too vast a heritage to be [illegible] and [illegible]." There can be scarcely a doubt that when this and kindred [illegible] Sullivan, the feast had [illegible] "that stage so eloquently described by [illegible], when "the [illegible] enjoyment of social [illegible] into the nobler enjoyment of [illegible] virtue, and the horizon of the board be [illegible] enlarged to the horizon of man." To what [illegible] we attribute this apparent willingness [illegible] ticket of the names of Fessenden and Pendleton and this invincible repugnance [illegible] allowing the white race of America to be [illegible] by oligarchy formed of an inferior people, "as conversant with the functions of [illegible] as a hog is with heaven?"

[illegible] was not there to "commend Congress [illegible] the President." But of the [illegible], he said that "in her valleys and on her [illegible] dwell a people of intelligence and [illegible] in whose Anglo-Saxon veins [illegible] the master blood of the world, and to such [illegible] people the government of that country [illegible] belonged. He demanded, therefore, that the [illegible] should be taken from the throat of that people and the heel from their neck." These sentences are very well rounded to the ear, but in order to fully understand their meaning and how they came to be uttered, it will be necessary to speak of an incident or two in the history of the politics of Washington Territory

A gentleman of that Territory occupying a [illegible] position was, considerably less than a year ago, a candidate before the Union party for the nomination as delegate to Congress. At that time he did not hesitate to "commend Congress" and oppose the President. The reconstruction acts had been passed and had gone into operation, and he believed in sustaining them. He did not then declare that the government of that country "be [illegible]" exclusively to defeated rebels He had no well rounded metaphors about the "bayonet at the throat, and the heel upon the neck of that people" He was not afraid of negro domination He did not deem it necessary to say anything against the terrible danger (!) of establishing the doctrine that the white man has no rights which the negro is bound to respect At that time he was not so quixotic. It was probably his opinion that the whites, with their numbers, energy, experience and property, would be able to stand up against negro competition He sought the support of the Union party on the ground of his approval of the present policy of Congress, which is endorsed by that party But he did not get the nomination. The choice fell on [illegible]. Defeat is often conservatizing in its influence, and in this case it was clearly so The gentleman in ermine evidently thought as several Oregon politicians have done, that a party which would not nominate him for a high office was too "Radical" for him to affiliate with longer and hence his virtual withdrawal from that party and his condemnation of measures which he fully approved only a few months ago Now there are many persons who will think that the justice and policy of the reconstruction acts are in no wise affected or altered by the failure of an ambitious gentleman to be chosen a Delegate to Congress from Washington Territory that If those principles were correct while he was seeking an office under a pledge of supporting them, they are just as good when another candidate gets the office which the aforesaid ambitious gentleman was so anxious to fill But office-seeking ambition has frequently known, on meeting with disappointment, to try to assuage its injured dignity by accepting the conclusions of the opposite party There have been a great many men whose political opinions have depended on their successes or disappointments in getting office A very good author has said, and the sentiment is a good one for this occasion, that "ambition should be made of sterner stuff" We have been thus particular about explaining the origin of one of the speeches delivered at the banquet at Olympia, because that speech has been pretty widely circulated by the Democratic press and under the circumstances it was fit, and even necessary, that this explanation should be made

CONFEDERATES WANT "DIXIE"—At the Democratic meeting at Oregon City last week, some of the speakers who had been engaged failed to appear However, the unterrified who were present proceeded to make the best of it, and thought to supply the loss of speakers by playing their national air of "Dixie" Accordingly they called on the band for this stirring air, but as the band did not have the printed music to suit the piece, it failed to respond to the call, and struck up "Marching through Georgia" instead This highly incensed a number of Democrats present, who left the hall with loud clamor and execrations because their Confederate ears had been profaned by the abolition song which had been sung by Sherman's "invading hordes" on their march to the sea.

Beriah continues his leaders got up on the "sausage" principle The material for his last effort is furnished by the speech of a rebel "Major" of Virginia who laments that he is stripped of his "constitutional immunities," and that he "has no country." What a pity that the Confederacy did not succeed, so that this class of patriots might have had a country and been spared these lamentations!

A Union Club has been formed at Empire City, Coos county The officers are President, Isaiah Hacker, Vice President, C. S. Sawyer Secretaries, M. M Bates and H. H. Luce, Treasurer, James Cummings. We are assured that Coos county will give her usual Union majority

About ten million feet of lumber was shipped from Coos Bay during the past year.

### Message which the President did not Present

The *Tribune* gives the following message which it was rumored that the President was about to send to Congress

*Gentlemen of the Senate and House of Representatives*. An official copy of the resolution of the Senate, non concurring in the orders issued from this presence, suspending Edwin M. Stanton from exercising the duties of the office of Secretary of War, has reached me, through the regular channels of the War Department, and I hereby recommend to Congress the action which seems to me proper in view of the circumstances.

It will be perceived that Gen. Grant has made the law the rule of his conduct, that he will uphold the law-making power and the civil authorities in the performance of their proper duties, and that he will use his military power only to preserve the peace and enforce the law. He declares, by his acts, silently, but in the most emphatic manner, that the sacred right of the Senate to share in the responsibility of all appointments to and removals from office, as affirmed by the Constitution, and re-affirmed in the Tenure of Civil Office bill, shall not be crushed out or trodden under foot. He goes further, and, in one comprehensive act, the surrender of his office to the joint appointee of the President and the Senate, he asserts that the principles of American liberty are still the inheritance of this people, and ever should be.

When a great soldier, with unrestricted power in his hands voluntarily foregoes the chance of gratifying his selfish ambition, and devotes himself to the duty of building up the liberties and strengthening the laws of the country, he presents an example of the highest public virtue that human nature is capable of practicing. The strongest claim of Washington to be "first in war, first in peace, and first in the hearts of his countrymen," is founded on the great fact that in all his illustrious career he scrupulously abstained from violating the legal and constitutional rights of the law making power When he surrendered his commission to Congress, the President of that body spoke his highest praise in saying that he had "always regarded the rights of the civil authorities, through all dangers and disasters." wherever power above the law courted his acceptance, he calmly put the temptation aside By such magnanimous acts of forbearance he won the universal admiration of mankind, and left a name which has no rival in the history of the world.

I am far from saying that Gen. Grant is the only officer of the American army who is influenced by the example of Washington. Doubtless thousands of them are faithfully devoted to the principles for which the men of the Revolution laid down their lives But the distinguished honor belongs to him of being the only officer in high command at the capital who has carried these noble sentiments into practical effect by setting an example of deference and obedience to the legislative power.

I respectfully suggest to Congress that some public recognition of Gen. Grant's patriotic conduct is due—if not to him, to the friends of law and justice throughout the country. Of such an act as his, at such a time, it is but fitting that the dignity should be vindicated and the virtue proclaimed, so that its value as an example may not be lost to the nation

ANDREW JOHNSON.

Washington, D C., Jan 15, 1868.

HOLD THEM TO THEIR RECORD—The Democratic papers everywhere are trying to beg off from the record which their party made during the war. But they shall be held to it, they shall not quibble and escape On this point the Salem *Record* has the following well directed remarks

The *Tocsin* says Mr Sullivan discussed State sovereignty, and endeavored to prove for two hours that secession was wrong, and it declares that is one was not in dispute That may be a good get off now, for the doctrine of secession has been decided by the people, but the Democratic party cannot and shall not dodge it It took its stand at the outset of the war for secession, for State sovereignty, against the war to prevent secession, and against granting supplies to carry on that war It was vociferous against using negroes in the army to put down rebellion, denounced the emancipation proclamation, is yet hard pleading that slavery was illegally abolished, and telling how much the war against it cost Hold them to their disunion record, to their sympathy with treason, and let them mourn for slavery, but let us claim and secure the vote of every man who considered the Union worth preserving and freedom a better national institution than slavery That is our platform now and always

The Boston *Sunday Courier* has a special dispatch from New York which announces positively that the New York *Herald* has been offered for sale within a day or two, and that certain partners in the *Tribune* Association are negotiating for the purchase The price is understood to be $1,000,000, exclusive of the new building, but includes the four new presses, which cost $400,000. This sale is not on account of the trouble with the Associated Press, but, if rumor can be believed, is caused by certain family perplexities of the senior editor which have for some time been the subject of gossip

FESTIVITIES IN INDIA—While preparing for the expected victories in Abyssinia, the British Viceroy in India has been holding a grand celebration at Lucknow For this purpose he assembled the princes of the great Oriental Empire of 200,000,000 of the subjects of Victoria, Empress and Queen, who passed before him in a gorgeous procession of Eastern magnificence, a single feature of which was four hundred richly caparisoned elephants

NEWSPAPER ENTERPRISE—The bill of Thos W Knox, on his return from his round the world voyage for the *Herald*, was $5,000 in gold, which that journal promptly paid As only ten of his letters were printed, they cost the *Herald* $500 each in coin That is not quite as expensive as the captured correspondents, Richardson and Brown, were to the *Tribune* Their bill was some $3,500 apiece when they escaped from prison, and for the sum they wrote about three columns, which was nearly $1,200 per column in currency The expenditures of New York journalism are no trifles

The Vallandigham and Voorhees Democracy had a meeting at Columbus, Ohio, the other day Among other incidents a party of them were riding along the streets in a big wagon singing, "Down with the traitors" &c, and just as the word "traitor" was pronounced a wheel came off the wagon and let them all down

CHAS. DICKENS' READINGS are creating quite a sensation in the Atlantic States, the proceeds of which are so enormously large that that popular author refused the sum of Twenty-five Thousand Dollars to come to San Francisco—and yet the people of Oregon continue to buy their clothing and dry goods at the best and cheapest house in the State which, of course, is at KOHN & FISHEL'S

**Buchtel's Photograph Gallery** is the *only* establishment in Oregon that is thoroughly prepared to do *all the different styles* of work in the art Photographs from card to life size *The new cabinet cards* &c &c Small pictures enlarged (retouched in India ink—painted in water-colors or oil) by Mrs S J Rumsey Pictures that are fading can be reproduced in this way All negatives taken in this gallery will be carefully preserved, and additional copies had I have now on hand a very large collection of negatives the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room

### Change in Business!

WIBERG & STROWBRIDGE have disposed of their entire retail stock of Boots & Shoes and will hereafter devote their whole attention to the WHOLESALE BOOT & SHOE BUSINESS. We have in hand 200 cases of Boots and Shoes which we offer very low in order to make room for our spring stock direct from the East which will arrive about the middle of March Our arrangements for direct importations are now complete one of our firm having located his residence near Boston for the express purpose of buying and forwarding goods for our house in Portland We will keep none but first class goods and we think we can do as well by dealers as if they purchased their goods in San Francisco

## TURBINE WATER WHEEL!

*Fig 1.*

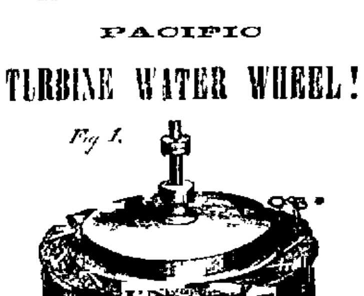

*Fig 2.*

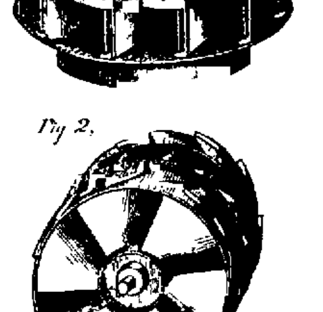

THIS NEW WHEEL, OF WHICH THE ABOVE cut is an illustration, has

**FOUR SETS OF BUCKETS,**

USES THREE-FOURTHS OF THE WATER TWICE,

Giving at least Twenty per cent more Power than any other Wheel ever invented.

Figure 1 is an axial section of case with wheel inclosed and illustrates the arrangements for applying the water through a series of openings in the periphery of the case direct upon the wheel by fixed guides [illegible] gates extend [illegible] toward the opening, which are between their inner ends and when open [illegible] against the guides [illegible] the inward flow of water. The gates are opened and closed by a hand and rat[illegible] wheel [illegible] which operates a rack segment on a ring which extends entirely around the top of the case partially revolving the ring from different points The revolving [illegible] opens or closes the gates by means of connecting rods

Figure 2, a perspective view, shows the three sets of periphery and the radial set of Buckets The peculiar [illegible] that it uses three-fourths of the water twice [illegible] never before achieved in any water wheel The Buckets are very shallow, and confine the water [illegible] of the wheel After the water [illegible] all the power that can be obtained in three sets of well arranged periphery buckets, it passes to, and is again used up in the radial set, giving an additional [illegible] and steadiness [illegible]

Aware that the new principles of this invention may not be readily comprehended the inventor has only to say that seeing the wheel work is the most certain way of removing skepticism He will warrant every wheel to perform all that he claims for it [illegible] its use many of the now abandoned water [illegible] may be again made the means of adding to the employment and wealth of the country

**Manufacture of the Wheel.**

The Inventor has made arrangement with the WILLAMETTE IRON WORKS Portland, for the manufacture of these Wheels

BASE BALL MATTERS.—Mr. Theodore F. Miner, formerly of this city, and a member of the Pioneer Base Ball Club, visited Philadelphia in December, as the representative in the National Base Ball Convention, of the Pioneer Club of Oregon. Subsequently, he wrote from Albany, N. Y., to the Club here, a very interesting letter, from which we take, by permission, the following extracts: "I arrived in Philadelphia at 11 P. M., Dec. 10th. The Convention assembled at the Chestnut street theater at 10 A. M., on the 11th. I was agreeably surprised at finding almost the entire assembly composed of fine looking men. The rowdy element I had expected to find was not there. * * * During the calling of the roll much enthusiasm prevailed. When the names of the most prominent and popular clubs, such as the Atlantics, of Brooklyn; Athletics, of Philadelphia; Nationals, of Washington; Mutuals, of New York, etc., were called, the delegates were applauded. But to the credit of Oregon, be it said, that upon the Pioneers of Portland Oregon, being called, their delegate responded present, *the house came down*. I think I am safe in saying that every delegate present cheered and applauded the Pioneers. The reception to the "delegate" from Oregon, though entirely unlooked for, I assure you, was highly gratifying. Singular to relate, the West had, by far, the largest representation in the Convention. Each club in a State Association was allowed two votes, through its delegates to the National Association; thus, Illinois, representing 55 clubs, had 110 votes; Ohio, 42 clubs, 84 votes; Wisconsin, 26 clubs, 52 votes; Indiana, 21 clubs, 42 votes; Nebraska, 1 club, 2 votes; Missouri, 1 club, 2 votes; Oregon, 1 club, 2 votes. Total for the West, 294 votes. All the remaining votes in the Convention would have to unite to beat this. Some dissatisfaction was expressed at allowing one man to come into the Convention with 110 votes in his pocket, as did the delegate from Illinois. This [illegible] individual went by the striking cognomen, "Hundred and Ten," all through the Convention. You will find when the constitution of the National Association, as amended for 1868, appears, it will provide for the representation of States only by delegates from State Associations, except in those States and Territories where there are not ten regularly organized clubs. State Associations can be formed of ten clubs, that number being the minimum."

The remainder of the letter is mostly devoted to details of proceedings, rules adopted and personal experiences. The above extracts are sufficient to show the clubs of this State what they must do if they wish to be represented in the next National Convention. The convention called for the purpose of forming an association for this State, will meet in this city on the 21st inst. If the clubs wish to form a State Association, they must act promptly.

ROLL OF HONOR.—The following is a list of names entitled to a place on the Roll of Honor, for the quarter ending Feb. 14th, 1868—Portland Academy and Female Seminary:

Annie Atkinson, Kate Bachelder, Albina Bachelder, Mary Barkwell, Minnie Barrett, Louise Beck, Annie Breck, Minerva Bryant, Alta Bryant, Nellie Camp, Laura Camp, Sallie Campbell, Olive Clay, Minnie Couch, Mary DeVore, Rebecca Eagleton, Nora Egan, Hattie Foster, Annie Gantt, Charlotte Hall, Mary E. Hall, Alice Henderson, Katie Holman, Henrietta Hoyt, Sarah Hoyt, Alida [illegible], Martha Kelley, Annie Kenneth, Laura Kline, Virginia Ladd, Addie Lownsdale, Agnes Lownsdale, Ada Lovejoy, Mary Marquam, Bell McBride, Helen M[illegible], Katie Nelson, Maggie Patton, Irene Quivey, Mary Robb, Sarah Robb, Eugenie Rosenheim, Flora Sawyer, Emily Shattuck, Mary Sullivan, Nellie Thompson, Carrie Wilcox.

George Ainsworth, Melville Anderson, Edward Atkinson, Willie Beeman, Emmerel Beck, Foster Bennett, William Bennett, Willie Benson, Harry Benson, Charles Biles, Marion Biles, Richard Bird, Lewis Blumauer, Henry Boyd, Berry Brown, James Burke, Clarence Carter, Winfield Chapman, Harry Chapman, Eddie Crandall, John Crawford, Edward Dandy, Ainsworth Dierdorff, William Dierdorff, Oscar DeLin, Paris Glitner, Charles Griswold, Thomas Hartness, Daniel Harvey, Harvey Henderson, Fred Holman, Theophilus Humphrey, M. M. Hunter, [illegible] Jacobs, Willie Jones, Willie Ladd, Charles Ladd, Warren Leffel, Jesse Marks, John Mason, Wilbur Masters, Benny Mayer, Herman Metzger, Albert Morton, Wilbur Morton, Frank Robbins, Willie Roberts, George [illegible], Ladru Royal, Bernard Selling, Simon Selling, Eugene Shelby, Daniel Schindler, Samuel Simon, Clay Starr, Miles Starr, John Stice, Fred Strong, Thomas Strong, Willie Strong, Horace Swafford, Douglas Taylor, Walter Thompson, Edward Tracy, Willie Upton, Matthew Watson, Holt Wilson, George Zimmerman.

STREETS AND SIDE-WALKS.—During the late cold weather, the streets have received an immense amount of garbage which it was impossible to remove while frozen. Since the gutters have thawed out, these accumulations are becoming decidedly offensive beside being very unsightly. The health of the city would not be injured in the least by having a general clean up, and the general appearance of things wouldn't be damaged any, if the police would at once enforce the regulations concerning garbage deposits and obstructing the side-walks. The latter has recently become such a nuisance as to be very damaging to Christian serenity. It is doubtful if a man or woman is living who could walk the length of Front or First streets without saying something wicked about the piles of wood, packing boxes, goods and chattels, and a thousand and one other obstructions on the sidewalk.

PACIFIC TURBINE WATER WHEEL.—This new invention, by Mr. H. W. Shipley, is advertised this morning. According to the statements made by Mr. Shipley, it involves a new principle in the use of water as a motive power, and if his claims are correct, a very important one. He claims that this wheel utilizes the water more perfectly than any wheel ever invented, giving a per cent of power greater by twelve to twenty per cent. If so, and the certificate of Mr. Kelly seems to place the matter beyond reasonable doubt, the Pacific Turbine Water Wheel must soon supercede all others, especially where economy in the use of water is necessary. The Willamette Iron Works is about to engage in their manufacture, in numbers and sizes to suit all possible demands. Orders may be sent either to the Willamette Iron Works or to Mr. Shipley.

THE "NEXT STEAMER" COMING.—We hear it stated that one of the corporators of the Oregon and Humboldt Railroad represents to his friends that the engineers of that road are now on their way here, and upon their arrival will begin the work of preliminary surveys, as soon as practicable. According to the report current, the stock has been all taken at the East, and the contractors will proceed upon their own responsibility and no aid from Oregonians will be asked for. Twenty miles of road are to be completed during the present year. This report is all very fair, very independent and all that, but we shall await the arrival of the "next steamer," before we tie to it. If the engineers are on board the "next steamer," and if they do go to work, we may begin to have a dawning confidence in the rest of the story.

CIRCUIT COURT—UPTON, JUDGE.—The following are the proceedings of Friday, Feb. 14th:

State vs. William Fox, John Holt and John Brooksbank; indicted for larceny in a dwelling house—arraigned; J. H. Stinson appointed by the Court to defend.

State vs John Williams; indicted for larceny in a dwelling house; arraigned, and C. A. Dolph appointed by the Court to defend.

H. C. Hill vs. A. Meier, case submitted to jury.

John Terwilleger vs O. R. Rosenchroyst; action on account, jury trial; judgment for plaintiff in the sum of $175 coin and $10 25 currency.

Grand Jury brought in two bills of indictment.

THE VANCOUVER PLANK ROAD.—The petition circulated by Mr. Schaeben, for the improvement of the road between East Portland and Switzler's Landing on the Columbia river, has already received near two hundred signatures of residents of this county, nearly every one of whom is a considerable tax-payer. The scheme seems to meet with no opposition from any quarter, while the friends of the measure are pushing forward with zeal and strong hopes of success. The present interruption to communication, is a strong argument in its favor, as it illustrates, practically, the necessity of road communication. We hope the friends of the measure will "strike while the iron is hot."

THE CONTRACT SIGNED.—The contract between the city of Portland and the Oregon Central Railroad Co., authorized in the ordinance recently passed by the City Council, was drawn up and signed by the respective parties last evening—J. Gaston, President, and W. C. Whitson, Secretary, representing the Company; and W. S. Caldwell, Auditor and Clerk, representing the city.

THE GYMNASIUM.—The gymnasium on Second street will be re-opened this evening under the management of Messrs. Bachtel & Hill. They propose to commence a regular course of instruction and will be ready this evening to make permanent arrangements with the Club who have the institution under lease. It is the purpose of the conductors to keep the institution running until the beginning of the Base ball season. We would recommend all who wish to enter the "field" in good condition, to make it an object to attend the Gymnasium this evening, when satisfactory arrangements may be made for the season.

MEETING OF RAILROAD DIRECTORS.—A meeting of the Board of Directors of the O. C. R. R. Co., closed last evening after a harmonious session of two days. J. C. Ainsworth was elected director. The contract between the Company and the city of Portland, in accordance with Ordinance 400, was entered into. Col. Cornelius will lead in trying to induce Washington county to pay the interest on $[illegible] of the Company's bonds for twenty years. A vigorous canvass will be instituted.

FLAX EXPORT.—Several bales of broken flax straw came down the river, yesterday, consigned to Messrs. McCraken, Merrill & Co. It came from the oil mill at Salem and, we are informed, is to be shipped to San Francisco to upholsterers, to be used for upholstery purposes. As there are always some crops of flax which are fit for little else than pulling, this sort of stuff is likely to become a regular article of export.

OPENING NAVIGATION.—The floods of December filled the Tualatin river, in many places, with drift. The freeze coming on immediately, the river fell to a very low stage and it was impossible to clear out the drifts. The P. T. Co. have now a gang of men at work, under the direction of Capt. Kellogg, in cutting all the drifts loose, so that when the water again rises they may be carried out, as before.

DIPLOMAS AWARDED.—At the close of the term of the Portland Academy and Female Seminary yesterday, diplomas were awarded to three graduates—Miss Mary Robb, Wilbur Masters and Albert Morton. Dr. Watkins, the President of the Institution, presented the diplomas, with the usual addresses to the recipients.

RELIGIOUS SERVICES TO-MORROW.—In addition to the regular services at the various churches to-morrow, a sermon will be preached at the M. E. Church, at 3 P. M. by Rev. A. Myers, Pastor of the Lutheran Church. This church has religious services at the above named hour, on each Sunday.

LARCENY OF CLOTHING.—An evening or two since, a clothes line on the premises of Mr. R. B. Sinnott was robbed of about $50 worth of clothing. The thieves took every article hanging on the line, not even leaving a shirt collar or wristband. The theft occurred early in the evening.

VALENTINES.—Yesterday, the day annually devoted to the honor of St. Valentine, the patron of love-sick birds and other bipeds, was celebrated in this city with a profuse expenditure of billets, not less than 500—as is estimated—having passed through the delivery at the post office.

SORE THROAT.—Since the change in the weather, colds have been very prevalent, and in many instances, inflamed throats and febrile symptoms have ensued. Several cases of which we have known, were severe, confining the patient to indoors for several days.

WOOL.—The latest advices outside of telegraphic reports, from San Francisco, says of wool: "There is a fair demand for good shipping grades. Sales include 50,000 lbs Spring, at 17@17½c, and 15,000 lbs Burry at 10@13½c—advance."

STEAMER ECHO.—A telegram from Oregon City last evening, says: "Steamer *Echo* arrived here this afternoon and was taken to the P. T. Co's dry dock for repairs. Capt. Pease will have her ready to make regular trips by Wednesday next.

PRODUCE.—Arrived per steamer *Alert*, from Oregon City yesterday, 737 bags wheat, 525 qr sks flour, 253 sks feed, 97 boxes apples, 15 gunnies bacon, 8 hf bbls dried apples, 3 boxes eggs, 2 cases woolen goods, and 6 bales broken flax straw.

STEAMER COWLITZ.—This steamer, which has been on the ways receiving repairs and machinery, is said to be now ready for launch, and will in a few days be ready for active service. She belongs to the opposition line of Hann & Co.

HAMS AND BACON.—These articles, which are not usually quoted by telegraph, were selling on the 1st instant, at San Francisco, at 14@20c for Oregon hams and 12@13c for Oregon bacon.

U. S. CIRCUIT COURT.—The U. S. Circuit Court will reopen this morning at 10 o'clock, when the opinion of the court in the case of Field vs. Squires, will be announced.

THE FIDELITER.—By private telegram, we learn that the steamer *Fideliter* will sail from Victoria for this port to-day.

The name of Minnie Couch was unintentionally omitted from the Roll of Honor of the Portland Academy for the quarter just ended. In justice to Miss Couch I have to say in this public manner, that no name is entitled to a higher place on the Roll than hers. T. M. GATCH.

THOSE WHO DESIRE FIRST CLASS DENTAL SERVICES would do well to give him a call. He is making a NEW AND IMPROVED VULCANITE PLATE. The nature of his improvement consists in lining the entire concave surface with fine gold; it makes the plate twice as strong and one third times thinner than the common vulcanite plate. It also prevents all soreness of the mouth from roughness of the plate and from forming of black, which is so common to vulcanite. One half of the common vulcanite plates turn black after being in use a short time, particularly when tobacco is used for smoking. It also affords a place for a very fine finish on the concave surface inside. He also is the only place where such work is to be had. The improvement is his own invention, Patented, and was issued, December 24, 1867, a patent from the United States Patent Office. He has been making this style of work for the last two and a half years, and has specimens of the work which can be seen at his office. This work has given satisfaction in every case.

OFFICE temporarily at the private parlor of the New Columbian Hotel. dec21 3ptf.

MARTIN LUTHER on a time thought he saw the devil in his chamber, and threw an inkstand at his head. Had they had in those days AYER'S PILLS to exorcise all the devils that come from a disordered stomach, his laughable fright would not have become a matter of history.

DR. HOSTETTER'S STOMACH BITTERS should be in the possession of everybody in the mining region. As a preventive of various dangerous diseases to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage, it is speedy and powerful in its effects upon the system. In all cases of diarrhea, dysentery and the prevailing fevers consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should enter upon the exposed camp life of a miner without being provided with Hostetter's preventive of stomach disease, nor should any of those who are now engaged in the occupation, fail to have recourse to the Bitters. Sold by all druggists and dealers everywhere.

**PERRY DAVIS' VEGETABLE PAIN KILLER.**

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS.

At this period there are but few of the human race unacquainted with the merits of the Pain Killer; but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in these far off places by its merits.

**CHARTRES COFFEE!**
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of all economizers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

**HOSTETTER'S**
**CELEBRATED STOMACH BITTERS!**
A Pure and Powerful Tonic,
Corrective and Alterative, of wonderful efficacy in Diseases of the
**STOMACH, LIVER AND BOWELS.**
**PROTECTIVE PROPERTIES.**

Prevents Fever and Ague and Bilious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels; Steadies the Nerves and tends to Prolong Life.

**REMEDIAL PROPERTIES.**

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acid elements present more or less in all the ordinary tonics and stomachics of the day.

WEEKLY REVIEW

PORTLAND, FRIDAY Feb. 14, 1868.

Gold closed at New York last evening at 140⅝—one per cent less than our last week's quotation. The San Francisco price of Legal Tenders is 71@72c firm.

There is no change in the general condition of the jobbing markets since our last report. The upper Columbia river is still closed by ice precluding all business in that direction. Orders from the Willamette valley are limited to staple goods but the general exhaustion of assortments renders it difficult to fill even these, and thus trade is in every way hedged in. Stocks in every line are seriously broken and though the arrival of the steamer may supply the deficiencies in part, it must be yet several weeks before any large and general orders can be filled without trouble. Quotations are but little more than nominal throughout the lists.

The telegraphic news concerning the breadstuffs market gives the price of Wheat in San Francisco, $2 72½@$2 75 for good milling and choice shipping qualities, at New York, $3 15, firm, at Liverpool, 15s 6d. Flour at San Francisco, $7@$8, according to brand. at New York $12 75@$15 75—a slight advance.

We take the following from the Sacramento Union's San Francisco Market Review, of the 1st inst:

"The [illegible] of San Francisco during the first month of 1868 has been unusually active notwithstanding the weather has been exceedingly unfavorable. Some idea of the [illegible] of the import and export trade at this port may be formed from the following list of arrivals and clearances to and from foreign and Atlantic supply ports during January. * * * A total of 53 cargoes imported and 30 exported. I doubt whether the returns of any [illegible] port in the United States or Europe will show a wider range of commercial relations than is presented in the above lists. The details of the cargoes of the above [illegible] would be exceedingly interesting [illegible] and [illegible] did the space at my disposal permit their [illegible]. The imports embrace the products and [illegible] of nearly every civilized nation in the world. The exports are chiefly confined to the agricultural and [illegible] productions of this State. Of [illegible] of the imports it is not possible to obtain returns. It probably exceeds $4,500,000. The duties on them [illegible] at the Custom House, amount to $510 515. The value of the exports, [illegible] the returns made [illegible] Custom House, amounts to $4,450,119. The value of our exports, it thus appears, exceeds that of our imports by upwards of $1,000,000 in a single month. This [illegible] exclusive of $4,000,000 in specie and bullion. This is a suggestive fact for the consideration of the people [illegible]. The country—no matter what its resources—[illegible] which exports more than it imports, must be impoverishing itself—precisely as the individual must fall in debt whose expenditures exceed his income. [illegible] the exports during the present month were 429,[illegible] 313,771 sks flour, 1,437 tons copper ores, 1,000 bales wool, 2,201 hides, 5,000 flasks quicksilver, 300 cases borax, 712,000 feet of lumber, 1,875 pkgs wine, [illegible] 130 bbls salmon, 16 tons silver ores, 44 tons manganese, 88 tons blacklead, and an almost endless list of other [illegible] productions of this State. The exports of wheat during the month exceed the receipts by 180,000 sacks. The excess of exports over receipts of flour, has been 124,324 sacks.

[illegible] Market is evidently affected by the great [illegible] goods, for which there is but a limited [illegible] of the stoppage of trade with the [illegible] by the protracted inclement weather. [illegible] of all kinds are in excessive abundance; 50,000 [illegible] and 30,000 lemons have been received from Los [illegible] the week. Fresh apples are 50 ℔ cent. [illegible] than they were last month, owing to the cessation of [illegible] from Oregon. It is [illegible] that the crop in [illegible] badly [illegible] by the frost. Dried apples are [illegible] at 8@10c. [illegible] dearer. Sandwich [illegible] Oils of all descriptions [illegible] at $1 10@1 25, Lard at $1 10 [illegible] China Nut at 85c; Coal Oil is being concentrated [illegible]; Devoe's is held at 50c; Downer's [illegible]. Salt is declining. The cargo from the [illegible] sold at $13 ℔ ton in bulk, and $16 in [illegible] Island is offering at $14 50@$15 ℔ ton. [illegible] have been materially adv[illegible], owing to an arr[illegible] the refiners, by which one of them is [illegible] to make [illegible] profitable to pay for such idle [illegible] now held at 15c; Circle A [illegible] at 13c—with an almost absolute [illegible] advance. Syrups have ad[illegible] the new arrangement. San [illegible] now held at 75c ℔ gallon. fifteen [illegible] at 85½c. Spirits are not in as [illegible] they were last week. [illegible] are stiffer [illegible] $1 10@ [illegible]. Tea is held for extreme [illegible] are firmer. The stock of W. T. Coleman & Co. was sold at auction about 710 [illegible] which [illegible]. Wines are in active demand. There have [illegible] in French Clarets at an advance.

The [illegible] Market continues in a condition favorable [illegible] for wheat and flour for export [illegible] upwards. The [illegible] of all descriptions of produce have been [illegible] the first time in months, no oats have been [illegible]. The quantity received has been as [illegible] 47,978 sks. Barley, 3,710 sks. Flour, 17,396 [illegible] 10,391 sks. Hay, 3,800 bales [illegible] the week [illegible] 31,316 sks Flour, [illegible]

FROM T. M. GATCH, PRINCIPAL OF THE PORTLAND ACADEMY AND FEMALE SEMINARY

"Having lately had an opportunity of becoming somewhat acquainted with the workings of this Institution, I unhesitatingly recommend it to all who wish to secure a practical business education in the shortest time and with the least expense. The idea of going from Oregon to California to attend a Commercial School is simply absurd."

"It is my opinion that pupils instructed by Messrs. LAUDEN and DeFRANCE receive greater attention than those of any other Commercial College on the coast, and this I say without wishing to detract from the usefulness of schools I have visited in San Francisco."

### TO THE UNFORTUNATE.

**NEW REMEDIES, NEW REMEDIES**

### Dr. Gibbon's Dispensary,

**616** KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of long standing) and Ulcerated Legs successfully treated.

**Horrible Diseases.**

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces and their broken down constitutions, [illegible] them for the happiness of marriage at the very vinont of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his exclusive study for years and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases. In a few days trumping up to the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

**Seminal Weakness.**

Seminal Emissions the consequence of self abuse. This solitary vice, or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz. Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

**MARRIED MEN.**

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget this sacred responsibility resting upon them nor delay to obtain immediate relief.

**TO THE LADIES.**

The various complicated and distressing diseases incident to females, treated with eminent success. Such as Suppressions, Irregularities, Whites, Falling of the Womb, Tumors, all Urinary Diseases, Nervous Debility, Painful or Difficult Menstruation, Barrenness etc. will be speedily cured without poisonous drugs injurious or unpalatable medicines of any kind. Have no delicacy in calling, no difference what your troubles may be. The afflicted are cordially invited to call and satisfy themselves.

Persons calling at Dr. Gibbon's office or sending for packages of medicines may rely upon his assurances of confidential secrecy with implicit faith and expect no more than to be charged with a fair and mutually satisfactory remuneration for services rendered, reflecting the circumstances and difficulties of cases, rather than the too prevalent and selfish practice of extortion among quacks and pretenders.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge.

**CURED AT HOME.**

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*.

### CARD.

DR BARLOW J. SMITH'S WATER CURE AND Phrenological Institute, 627 Sacramento Street, San Francisco. This is the only Regular Water Cure in Francisco, where all curable diseases are treated without drugs. Dr. Smith was the first to establish a water cure on this coast, based upon the theory and practice of the New York Hydropathic College.

We have a truly healthful boarding place for men women and children, and our prices are moderate.

The Phrenological organs plainly indicate the diseases to which any person male or female, is predisposed.

Put this card in your hat, and when you come to San Francisco, call on Dr. Smith. He will give you consultation and a phrenological examination in regard to health. It will cost you nothing and may save you months and years of ill health and "bad luck."

Dr. Smith gives free lectures to gentlemen every Friday evening, on subjects pertaining to health, at his Phrenological Hall, 627 Sacramento Street.

### HIRAM SMITH'S

### Ophthalmic Panacea!

IN BRINGING THE ABOVE NAMED NEW REMEDY to the notice of the Public, the Proprietor begs to state a few facts in relation to it, as follows.

It originated in Prussia, where the science of Medicine is so thoroughly taught and practised, but owing to the poverty of its discoverer its wonderful properties were not known beyond the limited circle of his acquaintance in which, however, it proved itself absolutely infallible in eradicating disease from the eyes.

He immigrated to this country, bringing his discovery with him, but seems to have been indifferent to the propriety of giving it general and wide-spread circulation, and, as previously in his native country, seemed only desirous of using it among his friends and neighbors.

The present proprietor was one of those neighbors, and for many years was a witness to its wonderful efficacy, and after ineffectual efforts to persuade the Inventor to more widely disseminate the knowledge of its virtues, finally became himself the possessor of the secret of its preparation.

And now, while he does not deny that he hopes and expects to make money by its sale, he must yet lay claim to a desire to benefit his fellows by presenting to them a remedy *which does and will cure where medical science* and all experience have failed.

He wishes it to be understood that it will cure *all* the cases of the eye whether of recent or long standing, but its greatest power is exhibited when it is applied to old *Chronic Cases* of long standing, which have resisted every other attempt to cure them, and which have been given up as hopeless and past being cured or relieved.

He asks those afflicted in this way to give it a trial and so confident is he of its success that he instructs all his agents TO REFUND THE MONEY IF IT FAILS TO CURE.

It has within the past year cured cases of GRANULATED LIDS, INFLAMMATION, &c., of FIVE, SIX, NINE, FIFTEEN and SEVENTEEN YEARS STANDING, evidence of which fact is furnished in the testimony of the following persons living at and in the neighborhood of Harrisburg, Linn county.

ALEXANDER T. WALKER was cured of inflamed eyes of nine years standing. Had been treated by eminent physicians during all that time without effect.

Mrs. MONTGOMERY, of Harrisburg, had inflamed eyes for over two years. For one year they were so bad that she could not work. Was finally completely cured by the Ophthalmic Panacea.

F. H. MOORE, of the firm of Moore, Garst & Rider, of Harrisburg, had granulated lids for six years.

NATHANIEL BELL of Clackamas county had inflamed eyes and disease for over fifteen years.

ROBERT HAMPTY and W. D. PORTER of Harrisburg, JOHN M. HOLLOWAY, of Linn County, G. R. WARD of Lane County were all afflicted more or less severely with diseased eyes and were cured by the Ophthalmic Panacea.

All the above named persons have given to Dr. Hull testimonials to the facts as above stated, which may be seen at the proprietor's office in Harrisburg.

### REDINGTON & CO'S

ESSENCE OF

### JAMAICA GINGER

Is, as its title implies, a preparation containing in a highly concentrated form all the properties of the Jamaica Ginger [illegible] of the most popular domestic remedies [illegible] of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for while it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by riding in a railroad car, or by sea sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

Sold by Druggists everywhere and at wholesale by REDINGTON & CO., Agents for the Pacific Coast, San Francisco. je24d7m4p

### DR. J. C. YOUNG,

### Medical and Surgical INSTITUTE.

⁂ *CONSULTATION, IN ALL CASES, FREE.*

⁂ *CURES GUARANTEED, OR NO PAY REQUIRED.*

⁂ *IN ALL CASES WHERE CONFIDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED.*

*The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.*

*There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.*

*It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,*

*SEMINAL WEAKNESS,*

*That is sapping with its insidiousness the very life of its victims; in the treatment and cure of which the Institute has earned so enviable a reputation.*

**READ! READ!**

I am aware that by dwelling upon so uninviting a subject as the decay of manly vigor through the loss of the vital principle of life the ignorant may asperse my motive, but the desire to point out to those who suffer, languish and decay, the true cause of their affliction, is too great an incentive to be forced into silence. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell, but its presence can be detected by the most inexperienced by noting the following symptoms, Weakness of the back and limbs, languishing feelings, loss of muscular power, nervousness, irritability, cold feet or hands accompanied by hot head; symptoms of consumption, short breath, flushings of the face; aversion to society, confusion of the mind, loss of memory, nightly emissions, odorless, slight discharges upon the least excitement; trembling palpitation of the heart, irregular appetite, variable temper, etc.

YOUNG MAN, if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slightest degree, you have the seeds of weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares itself at once. Therein lies its greatest danger; for while the patient is being treated for some affection of the Heart, Lungs, Brain, or Digestive functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal Weakness.

See in the bent form and languishing steps, the poor victim of the fascinating vice! Mark the course of the destructive complaint in the hollow cheek and dull eye!

Drowsiness is one of the premonitory symptoms. At first it is easily shaken off but it grows eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed days of depression.

It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery. In a single instant it may wither your fond hopes and blast your honest aspirations.

Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system, unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are puny, distorted, decrepid, and degenerate. This is applicable to both sexes, whether married or single, and to all times of life.

Do not delay if you feel any of the symptoms of the terrible complaint, or if your acts have been such as to lead to them, but by instant application secure to yourself the only hope of health and happiness. The Doctor uses no mercury or other deleterious drugs—cures when taken in time, always guaranteed, and full and proper vigor restored.

The afflicted are assured of every confidence.

**PERSONS AFFLICTED WITH VENEREAL.**

During the seventeen years since the establishment of the Institute, the number of cases of Venereal that have been treated show a record unsurpassed by any Hospital in the world, and the success that has invariably marked the course of treatment,

**Without Mercury or other Deleterious Drugs,**

Shows conclusively the use of them to be not only uncalled for, but actually dangerous, for it is a thoroughly established medical principle that these poisonous drugs by entering the blood, ruin the constitution and destroy life.

The Doctor effects a cure in recent cases, in a few days and finds no difficulty in curing those of long duration without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in-doors or without. The diet need not be changed. Cures always guaranteed, or no pay required.

**IMPORTANT TO FEMALES.**

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the inquiry should be, Where is there a physician competent to administer relief, and whose respectable standing in society will recommend him to their confidence of the community?" The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but upon thorough, mature experience. Patients and practice both in hospitals and private families, can make, to save them from the hands of the unqualified, unscrupulous or designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble, one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise free. Cures guaranteed in all weakness and trouble incidental to the sex. Private apartments are provided when desired where can be had all the advantages of unremitted attention of the Doctor, and the most skillful and kind faithful nurses.

To CORRESPONDENTS.—Persons either male or female, residing in the interior are often deterred from consulting the Doctor because they cannot spare the time nor incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen by no one except the Doctor, and will be treated with the utmost confidence, and either be returned or destroyed.

☞ Consultation Free.

### Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

**Scrofula and Scrofulous Diseases.**

*From Emery Edes, a well known merchant of Oxford, Maine.*

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our [illegible]."

**Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.**

*From Rev. Robt. Stratton, Bristol, England.*

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

*From Mrs. Jane E. Rice, a well-known and esteemed lady of Dennisville, Cape May Co., N. J.*

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

*From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of [illegible] papers in Nashua, N. H.*

"I had for several years a very troublesome humor in my face, which grew constantly [illegible] until it disfigured my features and became an [illegible] erable affliction. I tried almost every [illegible] could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time, but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

**Erysipelas—General Debility—Purify the Blood.**

*From Dr. Robt. S[illegible], Houston St., New York.*

"DR. AYER. I seldom fail to remove Eruptions and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the [illegible]."

*From J. E. Johnston, Esq., Wakeman, Ohio.*

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The [illegible] were so bad that the cords [illegible] visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this [illegible], and excites the [illegible] all."

*From Hon. Henry Monro, M. P. P., of N[illegible] C. W., a leading member of the C[illegible] Parliament.*

"I have used your SARSAPARILLA in my [illegible] for *general debility*, and for *purifying the* [illegible] with very beneficial results, and feel [illegible] commending it to the afflicted."

**St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.**

*From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.*

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually [illegible] his eyes for some days. A skilful physician applied nitrate of silver and other [illegible] without any apparent effect. For [illegible] days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the [illegible]. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

**Syphilis and Mercurial Disease.**

*From Dr. Hiram Sloat, of St. Louis, [illegible]*

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of Syphilis and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

*From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.*

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent [illegible] for [illegible] both of the *primary* and *secondary type*, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

*Mr. Chas. S. Van Liew, of New Brunswick, N. J.*, had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

**Leucorrhœa, Whites, Female Weakness,**

are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

*From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.*

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

*A lady, unwilling to allow the publication of her name, writes:*

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

**Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,**

when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

### AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.
